DETAILED ACTION

Allowable Subject Matter

Claims 22-29 and 32-34 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is attached on the PTO 892 form of record. None of the references anticipate or make obvious, *inter alia*, "said carrier substrate and said capping substrate defining at least one cavity therebetween containing said at least one filter; and at least one interconnection configured for coupling the filter device to a wiring substrate using flip chip technology, said interconnection being a solder or metal bump".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 22-29 and 32-34 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 1-21, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 9/16/2004 is hereby withdrawn.** In view of the withdrawal of the restriction

requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
